

Standing International Road Weather Commission (SIRWEC) Update
SICOP Annual Business Meeting
July 16, 2016

The 18th SIRWEC conference was held in 2016 in Fort Collins, Colorado, from April 27 through April 29, 2016. The conference was a success with 24 presentations and 11 posters.

There were five topic areas during the conference:

- 1 – Road weather management systems
- 2 – Novel technologies in road weather
- 3 – Decision support systems and road weather
- 4 – Integrating road weather information and operations
- 5 – Moving RWIS forward

All the presentations can be viewed at the SIRWEC website:

<http://www.sirwec.org>

The next SIRWEC event is being planned in conjunction with the PIARC International Winter Road Congress to be held in Gdansk, Poland 2018
